

Information Technology Laboratory Computer Security Division

# Agenda

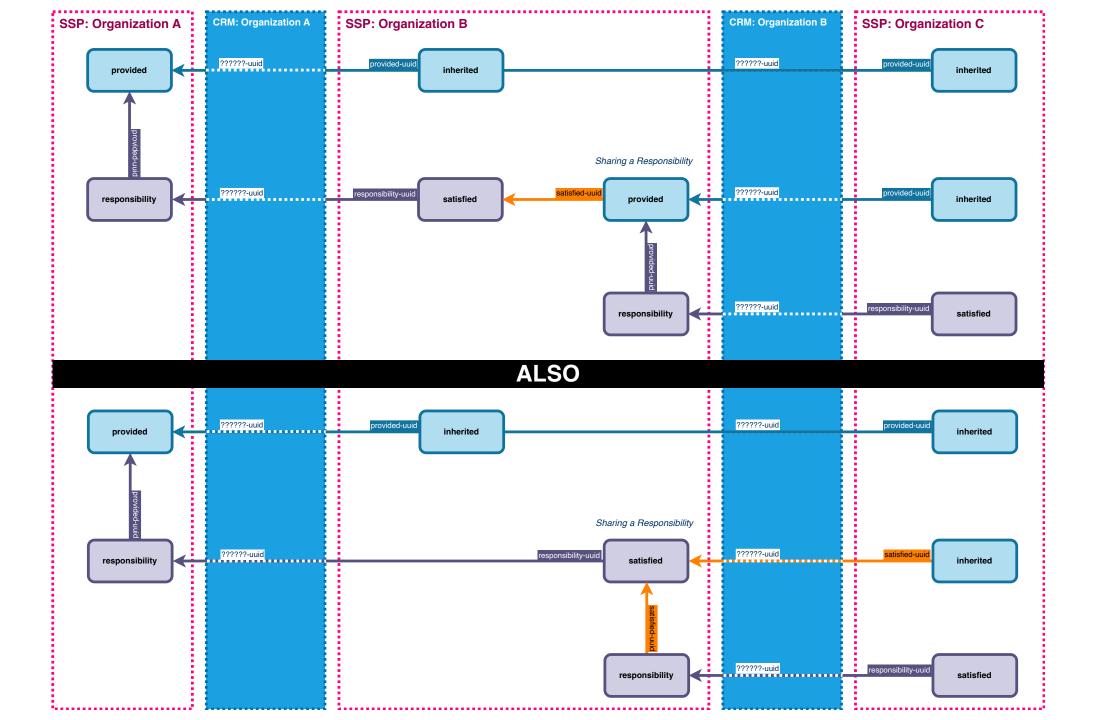

- The Pattern
- The Example

## **Concerns Today**

- 1. The Pattern
- 2. Associations in the Pattern
- 3. Does it make sense?

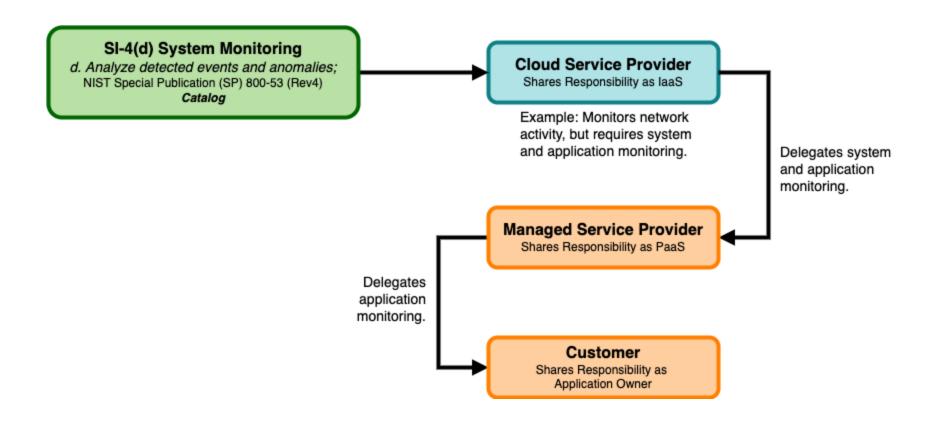

# **Applied Example**

# Simplification

## **Control: Analyze Events**

Requirement: Analyze detected events.

- Cloud Service Provider
  - Analyze the network events.
- Managed Service Provider
  - Analyze the container events.
- Application Owner
  - Analyze the application events.

# **And... (with Proprietary Info)**

### Cloud Service Provider | Analyze the network events

- PI: Automated analysis of patterns and characteristics of access and use.
- Access dashboard for events.

### Managed Service Provider | Analyze the container events.

Review service provider network dashboard on daily basis.

## Application Owner | Analyze the application events.

#### Cloud Service Provider SSP

uuid: NISTDEMO-0CSP-0001-CSP

components:

control-implementations:

#### implemented-requirements:

uuid: CDEF-1111-CSP

control-id: si-4

statement-id: d

\_\_\_\_\_

provided:

uuid: PROV-1111-1111-CSP

exportable: true

Analyze the network events.

#### provided:

uuid: PROV-1111-2222-CSP

exportable: false

Automated analysis of access and use patterns.

#### responsibility:

uuid: RESP-1111-1111-CSP

exportable: true

Analyze events on customer deployed resources.

#### responsibility:

uuid: RESP-1111-2222-CSP

provided-uuid: PROV-1111-1111-CSP

exportable: true

Review dashboard for network events.

#### Managed Service Provider SSP

uuid: NISTDEMO-0CSP-0002-MSP

components:

control-implementations:

#### implemented-requirements:

uuid: CDEF-2222-MSP

control-id: si-4

statement-id: d

\_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_

inherited:

uuid: INHT-2222-1111-MSP

provided-uuid: PROV-1111-1111-CSP

exportable: true

Network event logs are reviewed daily.

#### satisfied:

uuid: SATF-2222-1111-MSP

responsibility-uuid: RESP-1111-1111-CSP

exportable: true

Analyze container events on resources.

#### satisfied:

uuid: SATF-2222-222-MSP

responsibility-uuid: RESP-1111-2222-CSP

exportable: true

Dashboard is reviewed daily by authorized staff.

#### responsibility:

uuid: RESP-2222-1111-MSP

satisfied-uuid: SATF-2222-1111-MSP

exportable: true

Analyze the application events

#### **Application Owner SSP**

uuid: NISTDEMO-0CSP-0003-SNIP

components:

control-implementations:

#### implemented-requirements:

uuid: CDEF-3333-SNIP

control-id: si-4

statement-id: d

\_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_ \_

inherited:

uuid: INHT-3333-1111-MSP

provided-uuid: PROV-1111-1111-CSP

Network event logs are reviewed daily.

#### inherited:

uuid: INHT-3333-1111-APP

satisfied-uuid: SATF-2222-1111-MSP

Analyze the container events.

#### inherited:

uuid: INHT-3333-2222-APP

satisfied-uuid: SATF-2222-2222-MSP

Dashboard is reviewed daily by authorized staff.

#### satisfied:

uuid: SATF-3333-1111-APP

responsibility-uuid: RESP-2222-1111-MSP

Application events are monitored daily.

application events are monitorea daily.
